

Boeing 757-200 Livery Drawings

**THESE DOCUMENTS AND DIAGRAMS
ARE INTENTIONALLY USED FOR THE PROCESS
OF PAINTING THE LIVERY AND LOGOS ON THE
BOEING 757-200 AIRCRAFT**

Tail of Boeing 757-200 Aircraft

SECTION A

6 different colors needed on tail, these colors are: Royal blue, Red, Banana Yellow, 2 Kelly Greens (small triangle near door is somewhat darker, one near rudder area of aircraft is somewhat more lighter in color). A helpful method of how to paint this tail is that the graphic designers who created this livery used multiple triangles and squares.
